

New Powder Spray Bottle Line

A clean, twist-to-open powder spray system for modern personal care brands.

[View the Collection](#)

Twist. Spray. Done.

One-handed dispensing with no cap to lose. The actuator is engineered for powder formulas that need a smooth, controlled release every time.

01

Twist-right lock

A simple quarter-turn locks the actuator for transit and unlocks it instantly for use.

02

All-plastic build

PE/PP construction keeps the bottle lightweight, chemically compatible, and easy to recycle.

03

Press-to-dispense

The powder pump delivers a consistent, fine spray without clumping or sudden bursts.

Four Sizes. Your Colors.
